

A photograph of several penguins on a rocky shore next to a body of water. The penguins are of various species, including what appear to be African penguins and penguins with yellow and blue bands. They are standing on reddish-brown rocks, some near a small pool of water. The background shows dark water and reflections.

# News from the TikZ zoo: An introduction to the TikZlings package

# Bearwear (by Ulrike Fischer and the Bär)

## The BearWear 🐻 Package\*

Idea: Bär 🐻

Implementation: Ulrike Fischer† 🏰

2020-04-21

## 1 Basic Usage

The package is based on TikZ and the main command should be used in a `tikzpicture` or – as shown in some of the examples – with `\tikz`.

### 1.1 The shirts

The package provides a number of shirts for the bear, `long sleeves` and `round neckline` are the defaults:

```
\tikz\bearwear % default  
  [long sleeves,  
   round neckline];  
\tikz\bearwear  
  [t-shirt];  
\tikz\bearwear  
  [sleeveless t-shirt];
```

# Further Additions

```
\chicken  
\fill[blue] (0,0) rectangle  
  (0.5,0.5);
```

# Further Additions

With macros like `\rhinohookbelly` one can inject code on different layers

# Further Additions

```
\newcommand{\mousehookbelly}{%  
  \fill[red!80!black]  
    (0.55, 1.35) -- (0.65, 0.3) --  
    (-0.65, 0.3) -- (-0.55, 1.35)  
    -- (0.0, 0.9) -- cycle;  
}  
\mouse
```

# Problems or suggestions?

## How to get the TikZlings?

- both in T<sub>E</sub>XLive and MiK<sub>T</sub>E<sub>X</sub>
- CTAN: [www.ctan.org/pkg/tikzlings](http://www.ctan.org/pkg/tikzlings)
- GitHub: <https://github.com/samcarter/tikzlings>

## Problems?

- Bug tracker: <https://github.com/samcarter/tikzlings/issues>

## Suggestions?

- Suggestions and ideas at [githubu](https://github.com/samcarter/tikzlings)
- Author at [topanswers.xyz/tex](https://topanswers.xyz/tex) and [TeXnique.fr](https://texnique.fr)

**Thanks a lot for your attention!**
